> New Heights | Not Your Ordinary Deck Job

In our business, moving an offshore deck is an everyday occurrence. Sure, we've moved decks much larger and heavier but what makes this one so special is that it had to be raised an additional 12'. The deck was first transported in the yard and then lifted to the 12' needed for the additional legs. The now higher deck was then loaded out onto a waiting barge for delivery in the Gulf of Mexico.

The deck begins its move forward to mate with its waiting new legs.

Halfway there

Ready to lower onto the new legs

Coming onto the barge

On the barge, mission accomplished

> Introducing On The Move | The New Video Series!

With the success of our online newsletter brings a new dimension to the Berard Team.

Introducing: On The Move - The Video Series!

It's a Discovery Channel type online video series that will give you a more in depth look at the Berard Team in action. We'll feature some of the biggest, heaviest and most interesting moves on the planet that'll make you wonder just how we pulled it off! The current emailed version will still come each month with the video series coming each quarter or so as time allows.

On This Episode of On The Move:

Discovery Features Berard

The Discovery film crew travels with the Berard Team to bayou LaBatre AL to film a liftboat launch.

The Power Module Move

Watch as Berard moves a massive power module and joins it with the rest of the ship.

> Employee Spotlight | In Memory of Jesse Anthony

This month's employee spotlight is dedicated in memory of a longtime Berard employee Jesse Anthony who passed away in August of 2007. Jesse was part of the Berard Team for over thirty eight years and was a well liked fellow. He was always the first to arrive at the shop ready for work and probably had more experience moving houses than most of housemovers in business today.

Jesse helped move over 2000 houses and numerous industrial projects in his time. His team members were saddened the day that Jesse passed and still talk about and miss him today. He was a cool cat that helped Berard progress into what it is today by being a dedicated employee, always ready and willing to go the extra mile.

It says in the bible that God has a many rooms in heaven, and we all know that Jesse is there to help if one needs moving. May you Rest in Peace Jesse, thanks for being you and may God Bless You.

From all your extended family at Berard.

Jesse Anthony
