> New Heights | 1600 Ton Barge Offload

The Berard Team went the extra mile to help a client with the loadout of this 1800 ton liftboat barge. The original liftboat working location was in the Bahamas and was barged to and offloaded in Gibson Louisiana. The barge was elevated 29' above the deck barge on a steel support structure for loading at the point of origin. The offload took 60 lines of SPMTs, 4 power pack units, barge ramps, steel plate, winch trucks, load spreader beams, crane mats and a host of water pumps. The customer brought in the package to be scrapped but needed it done in a timely manner to avoid demurrage charges. They called on Berard for their expertise on offloading similar cargo in a safe and quick manner. The project took 3 days from start to finish allowing the customer to avoid additional charges and stay on schedule as planned.

> Berard Celebrates 65 Years!

2010 marks 65 years in business for the Berard company.

In 1945, Roy Berard Sr. came home after his first house moving job and told his wife that he'd like to move a "few more" houses. Those "few more" house moving jobs blossomed into the mega transport company it is today. His determination in advancing his business by being on the cutting edge in the heavy transport industry led to his company becoming a leader in the field. That determination still carries on today with the second and third generations of the Berard family surrounded by a great group of dedicated team members.

Berard Transportation has become exactly the company that Roy Berard envisioned it to be, a company that strives to be the best, and one that achieves that very goal on every project.

> 2010 = Zero Accidents!

The Berard Team is proud to announce that 2010 was an accident free year! That's right, ZERO accidents! It's an accomplishment that we're very proud of. In our business, we have always held safety as our top priority and this milestone proves that our commitment has paid off.

Our team members make this accomplishment possible through all the many hours of training, attention to detail and dedication to having the safest crew possible. At Berard, there have been many successes, but the true success of any and every job we do is when our valued team members leave the jobsite safe and sound. It's our way, it's the only way.

Congratulations to all the Berard Team for this magnificent accomplishment!

Happy Holidays!

As yet another successful year draws to a close, we reflect upon all the milestones we've achieved in 2010 from marking our sixty-fifth year in business, to the accident free year we've had and many more. We send our sincere thanks to all of our great clients who have allowed us to handle their projects. We also take this time to thank our dedicated Berard Team members who work so hard to make Berard what it is today.

It is our hope that you and your families be blessed this holiday season, and may your new year be a healthy and prosperous one!

Sincerely,
The Berard Team

> Equipment For Sale

Berard has equipment for sale from time to time. If you are in the market for some used equipment, check out the for sale webpage at the Berard website. All of our used equipment for sale has been taken care of by our certified employees so you can rest assured you're getting quality equipment.
