The Shipyard Offloading Ronald H. Brown

Job Specs

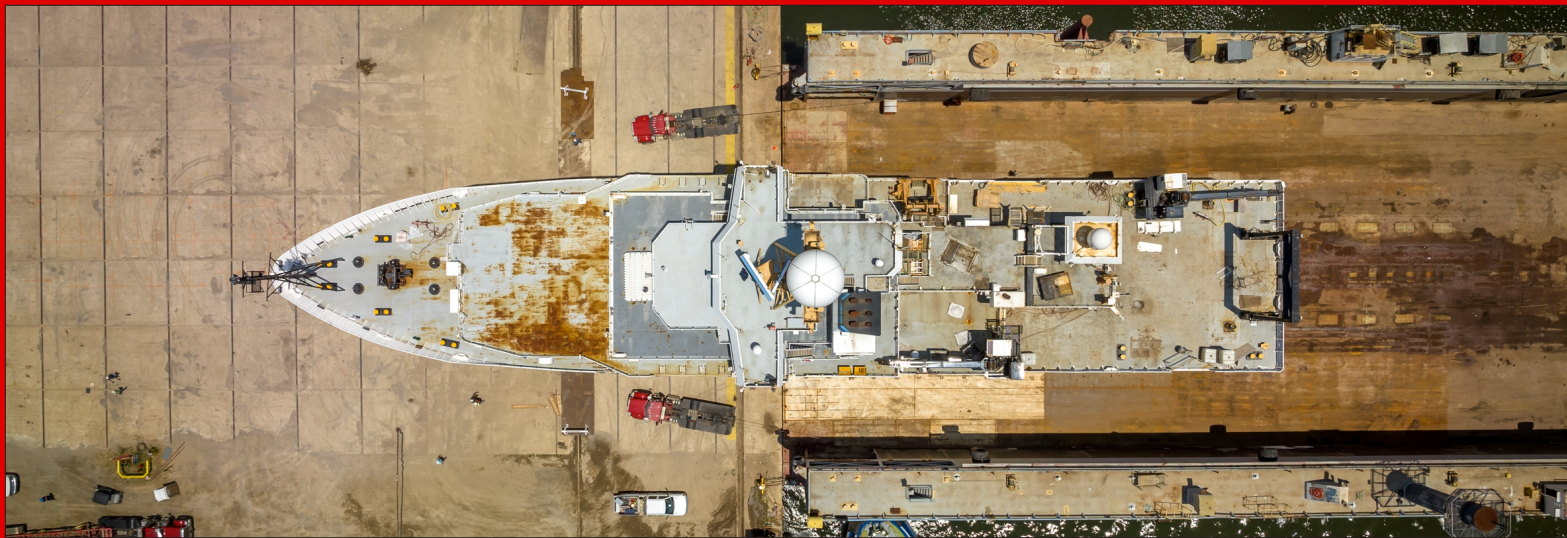

Weight:
2,900 Tons

Dimensions:
273'L x 52'W x 239'H

Equipment Used:
94 axle lines of SPMTs, 4
power packs, barge ramps
and winch trucks

The Berard team offloaded the NOAA Ronald H. Brown for a major shipyard in Mississippi. The ship was commissioned on July 19, 1997, and is currently homeported in Charleston, South Carolina. Ronald H. Brown is a global-class oceanographic and atmospheric research platform, and is the largest vessel in the NOAA fleet. With its highly advanced instruments, the ship travels worldwide supporting scientific studies to increase our understanding of climate and the ocean. The ship is undergoing a major refit and Berard was tasked with offloading it from the client's dry dock. The team used 94 axle lines of SPMTs to move the 273' vessel from the dry dock to a staging area where the shipyard's team could begin work. Berard is proud to have been involved and we thank our team for working safe and making this another success story.

A photograph of the George R. Brown Convention Center in Houston at night. The building is a large, modern structure with a curved facade, illuminated by blue and white lights. Red traffic lights are visible in the foreground, and a small orange construction vehicle is parked on the right. The sky is a deep blue.

Showtime! Berard @ Breakbulk Americas

It's that time again for Breakbulk Americas 2023 in Houston, Texas. Breakbulk Americas, the region's largest trade event for the project cargo and breakbulk industry, welcomes global sector leaders, including decision-makers from leading energy companies and EPCs, as well as regional specialized service providers. The event is held at the George R. Brown Convention Center in Houston on September 26-28, 2023. Visit us at booth J07 located in halls A&B.

A blurred, long-exposure photograph of the interior of the George R. Brown Convention Center. The image shows a large, brightly lit hall with many people and colorful displays, creating a sense of motion and activity. The text is overlaid on this background.

Jean Reaux

Rigger | Driver

Joining Berard in April of 2022, Jean Reaux became one of our talented rigging team members. He's excelled at his position at Berard and we're glad to have him. When asked what he likes most about his job, Jean commented "I enjoy what I do and most jobs are very interesting and fun. I really like working at Berard".

When not at work, he enjoys hunting, fishing

Happy Birthday!

Happy Birthday to These Dedicated Team Members!
